

# **TOPS Pro Software Requirements**

To install and run the **TOPS Pro** software, your system needs to meet the following requirements:

- **Platform:** Windows 95 / 98 / 2000 / NT/ XP / 2003
- **Network:** Any network is compatible. TOPS Pro is not network protocol dependent, it only needs a file server
- **Processor:** Any processor capable of running the installed platform - Pentium133 MHZ or better recommended
- **RAM Required:** 128 MB minimum - 512 MB or more recommended for “Save to Clipboard” function
- **Hard Disk Space:** 50 MB
- **Video Required:** 640 X 480 256 Colors - 800 X 600 at 16 bit color recommended
- **Code:** 32 bit
- **Compiler:** Microsoft Visual C++ 6.0
- **Database format:** C-Tree

**Network Information:** TOPS Pro is installed from a client to the file server. After the install all work is done on the client(s). TOPS Pro and DirectX usually do not take more than 50 MB of space on the file server, depending on the database size. DirectX is copied to the file server for install on client(s) that do not have a working copy of DirectX. As such, most Windows 98, 2000, NT, XP, and 2003 clients come with DirectX.

For import/export of data, TOPS Pro uses ASCII comma Delimited text files compatible with most document management systems, spreadsheets, databases and mainframes, including Excel, Access, Paradox, AS400, and UNIX platforms.
